

# **Student Destinations Report 2023**

## **Introduction**

The purpose of this document is to present an annual breakdown of the number of students entering the different types of post-college destination together with a detailed summary of those entering Higher Education.

The categories of destinations used are in keeping with national ILR requirements.

HE data is collated using documentation provided by UCAS, whilst information relating to apprenticeships, direct employment and other outcomes is gathered by the Central Administration Team. Information is added to the 'Leavers Database' following a telephone call to the student's home address. For most leavers, this will be during the subsequent autumn term.

## **Executive Summary**

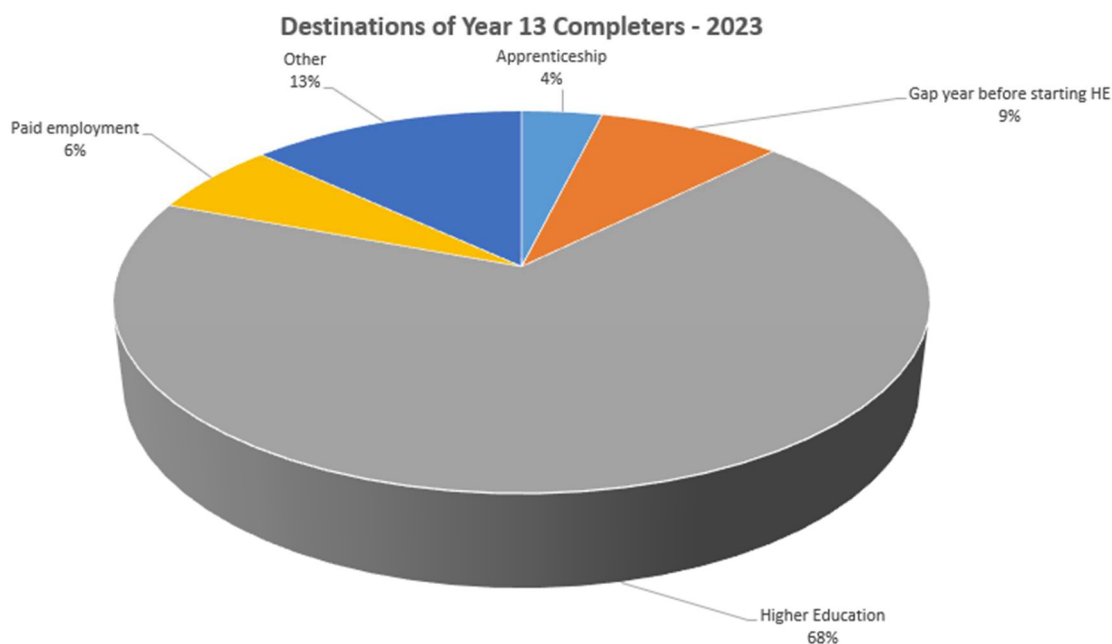

Key points highlighted by the report:

- Destination data has been collected for 96.1% of Year 13 completers (2022 = 93.7%)
- The percentage of students taking up an apprenticeship or paid employment is 3.0% higher than 2022
- The percentage of students taking an apprenticeship is two times that for 2019 (Pre-Covid)
- Positive destination figures are in-keeping with DFE value of 87.0% for sixth form colleges
- HE acceptance rate is 87.2% (85.9% for 2022) and is 14.0% higher than UCAS national figures for all applicants
- 69.9% of UCAS applicants secured a place at their 'First Choice' university (71.6% in 2022)
- 21.0% of students securing HE places were accepted by Russell Group universities (19.7% in 2022).
- HE acceptance figures for large ethnic minority groups are all above national figures.
- 2020/21 Sustained HE Destination figures Provided by SFCA put the College in the top 25% of Sixth Form Colleges – Joint 9<sup>th</sup> in the Sector

# Destinations 2023

## Year 13 Students (Completers)

Destination	2020		2021		2022		2023	
	Number	%	Number	%	Number	%	Number	%
Apprenticeship	11	1.2	34	3.3	31	3.0	47	4.0
Gap year before starting HE	36	3.9	70	6.8	76	7.4	103	8.7
Higher Education	704	76.9	738	71.5	730	71.4	808	68.0
In paid employment for 16 hours or more per week	21	2.3	50	4.8	43	4.2	74	6.2
In paid employment for less than 16 hours per week	5	0.5	30	2.9	12	1.2	0	0.0
Not in paid employment, looking for work and available to start work	10	1.1	7	0.7	5	0.5	11	0.9
Not known	23	2.5	15	1.5	27	2.6	43	3.6
Other FE (Full-time)	90	9.8	42	4.1	14	1.4	15	1.3
Other FE (Part-time)	1	0.1	3	0.3	4	0.4	2	0.2
Other outcome not listed	4	0.4	9	0.9	6	0.6	10	0.8
Restarted at SSFC	4	0.4	0	0.0	0	0.0	0	0.0
Unable to contact learner	5	0.5	28	2.7	71	6.9	76	6.4
Voluntary work	0	0.0	4	0.4	1	0.1	0	0.0
	914		1030		1020		1189	

## **Summary**

Overall, destination information has been collected for 96.1% of students who completed Year 13. This is above the % for 2022 (93.7%) and is similar to 2021 (95.8%). It is considerably higher than the 90.0% target set by the College.

From the above tables, it can be seen that of the 1189 Year 13 leavers in 2023, 808 took up a place in higher education. This is 68.0% of the cohort, compared to 71.4% in 2022, 71.5% in 2021 and 76.9% in 2020. Given that 2020 and 2021 were CAGs and TAGs respectively, this is a very respectable figure and more in line with pre-covid years. The 3.4% reduction compared to 2022 can be accounted for by the increase in the number of students opting for apprenticeships and employment.

Provided the above students remain in university education for more than 2 terms, these figures can be regarded as being considerably higher than the Department for Education national figures for 'Sustained Education' (51.2% for 2021/22).

A further 103 students (76 in 2022 and 70 in 2021) are recorded as taking a gap year, (either planned or "enforced"), with the intention of applying for 2024 entry. This is 1.3% higher than 2022 and may be a result of the current economic climate and students feeling the need to earn money before entering into HE. Evidence from previous years, confirms that gap year students have a substantial impact on overall HE success data. E.g., For 2023, an additional 95 gap year students secured university places. This raises the success rate for the previous year's Year 13 cohort (2021) from 71.4% to 80.9%.

The proportion of students entering either apprenticeships or full-time employment in 2023 was 10.2% (121 students). This is 3.0% greater than 2022 (7.2%, 74 students) and 2.1% higher than 2021 (8.1%, 84 students).

However, it should also be noted that the percentage of students securing apprenticeships in 2023 is twice that the pre-covid figure for 2019. With student destinations being a college priority, there is a strong desire to identify and support all students considering training and employment upon completion of their college programme. Primarily, this has been delivered through the academic coaching programme where, in line with Ofsted recommendations, further sessions have been added to promote apprenticeships and employment as realistic alternatives to HE. The college has also benefitted from third party support from organisations such as 'Skills for Success' and 'Life Ready, Solihull' and 'Ask Apprenticeships'.

## **Positive Destinations**

Overall, it is recorded that 944 of the students we currently know about (79.4% of the Year 13 completers), progressed to a positive destination (HE, apprenticeships, traineeships, full-time FE or employment for more than 16 hours per week). This is a 4.2% increase on the 2022 figure (75.2%). A more accurate figure will ultimately appear in the lagged DFE statistics.

If genuine planned gap-year students were added, the figure for 'Positive Destinations, this figure would rise to well over 80.0%, which would then be on a par

with the most recent DFE figure of 82.6% (2021/22) of level 3 students in sustained education or employment after 16-18 study – See *Appendix 5*.

In the final section of this report, entitled ‘Sustained Positive Destinations’, it can be seen that historical data confirms Positive Destinations of 85-89% as being a typical outcome for the College.

### **Examples of Apprenticeship / Employment Destinations**

AP Morgan Estate Agents

Degree apprenticeship with Mott Macdonald Birmingham, studying environmental management at Coventry University

Rolls-Royce Holdings and Derby College/University of Derby

Deloitte – legal and finance

FlaktGroup – Air Technology

KPMG

CISCO Systems

Mohammedi Pharmacy

National Grid

Paragon Bank

Pinsent Masons Law

Busy Bees Nursery

West Midlands Ambulance Service

Clear Insurance Management

Zurich Insurance

Witton Lodge Community Association

### **Year 12 Students (Completers)**

<b>Destination</b>	<b>2019</b>	<b>2020</b>	<b>2021</b>	<b>2022</b>	<b>2023</b>
Apprenticeship	0	0	0	8	10
Continuing into Year 13	946	982	1139	1412	1184
Higher Education	0	2	0	2	0

## Higher Education - See Appendix 1 and 2

### % Successful Applicants (including ex-students)

Year	2016	2017	2018	2019	2020	2021	2022	2023
Number of Applicants	873	982	870	929	857	898	947	1036
Accepts	753	870	767	835	781	800	813	903
% Success	86.3 (74.5)	88.6 (76.3)	88.2 (76.7)	89.9 (76.6)	91.1 (78.3)	89.1 (75.0)	85.9 (73.4)	87.2 (73.2)
% Above National Figure	+11.8	+12.3	+11.5	+13.3	+12.8	+14.1	+12.5	+14.0

( ) = UCAS national figures for all applicants

Figures taken from 'UCAS Destinations Report 2023'

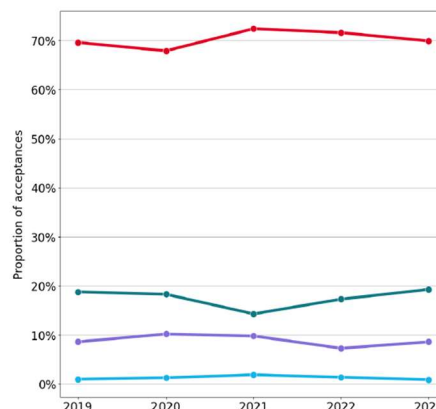

87.2% of all SFCS applicants secured a university place in 2023. This is 1.3% higher than in 2022. It is 14% higher than the national figure for 'all applicants' and 9.7% higher than the national figure for '18-year olds' (77.5%).

Overall success rates for the College continue to be higher than national figures and this is a true reflection of the time and energy devoted to supporting students.

### Acceptance Routes

Route (%)	2018	2019	2020	2021	2022	2023
First Choice	65.8	69.6	67.9	72.4	71.6	69.9
Insurance Choice	11.7	8.6	10.2	9.8	7.3	8.6
Main Scheme Clearing	18.8	18.8	18.3	14.3	17.3	19.3
UCAS Extra	1.6	1.0	1.3	1.9	1.4	0.9

4.1 Proportion of acceptances by route

The above table displays the acceptance route as a percentage of all students who secured HE places. In 2023, 69.9% of SSFC applicants took up a place at their first choice university. This is slightly down on 2022 but is very similar to the pre-covid yardstick of 2019 and is the 3<sup>rd</sup> highest percentage in over 10 years. This figure is impressive, it is a credit to the advice and guidance given, both within the Academic

Coaching Programme and the Careers Department, and supports the College Strategic Priority of raising student destinations from 'Good' to 'Great'.

Acceptance of 19.3% SSFC students via Clearing is 2.0% higher than 2022 and is in-line with pre-covid years.

19.3% equates to a substantial number of students and proves that this route, not only provides a welcome safety net for those who miss out on first choice/insurance offers, but also confirms 'Clearing' as a viable, and often attractive pathway into HE, with a substantial number of prestigious courses at competitive universities being offered.

### **Applications by 15<sup>th</sup> January UCAS Deadline**

<b>Applications</b>	<b>2018</b>	<b>2019</b>	<b>2020</b>	<b>2021</b>	<b>2022</b>	<b>2023</b>
By 15 <sup>th</sup> October	53	55	55	57	71	63
By January Deadline	774	839	763	805	833	940
Total Applicants	870	929	857	898	947	1,036
% meeting Jan deadline	95.1	96.2	95.4	96.0	95.5	96.8

The above table provides confirmation of the work done across the College to maximise students' chances of receiving an offer from their chosen institution.

### **Applications to Oxbridge**

<b>Year</b>	<b>2015</b>	<b>2016</b>	<b>2017</b>	<b>2018</b>	<b>2019</b>	<b>2020</b>	<b>2021</b>	<b>2022</b>	<b>2023</b>
Number of Applicants	16	19	24	22	19	17	15	13	20
Accepts	1	6	8	4	2	3	2	2	3
% Success	6.3	31.6	33.3	18.2	10.5	17.6	13.3	15.4	15.0

Support for Oxbridge applicants remains very strong. There is a supportive programme to help develop potential Oxbridge applicants, including strategies to encourage more widening participation students to apply for competitive institutions/degree programmes.

### **Applications for Medicine**

<b>Year</b>	<b>2015</b>	<b>2016</b>	<b>2017</b>	<b>2018</b>	<b>2019</b>	<b>2020</b>	<b>2021</b>	<b>2022</b>	<b>2023</b>
Number of Applicants	11	19	19	19	24	25	36	48	35
Accepts	4	9	5	5	6	7	11	10*	8**
% Success	36.4	47.4	26.3	26.3	25.0	28.0	30.6	20.8	22.9

10\* - Includes 3 foundation/gateway courses for medicine

8\*\* - Includes 1 foundation year course for medicine

Applicants for Medicine, Dentistry and Veterinary courses are all given additional support in a similar way to Oxbridge students. Some come through the 'Pre-Medical

School' enrichment programme whilst others join the support programme at a later stage. A number of students have also participated in external support programmes such as the University of Birmingham 'Routes to the Professions (Medicine)' and the Aston University 'Pathway to Healthcare' programme.

## **Applications to Russell Group Universities**

<b>Year</b>	<b>2015</b>	<b>2016</b>	<b>2017</b>	<b>2018</b>	<b>2019</b>	<b>2020</b>	<b>2021</b>	<b>2022</b>	<b>2023</b>
Number of RG Accepts	190	167	157	130	189	172	199	160	190
Total Accepts	791	753	873	766	835	781	800	813	903
% Attending RG	24.0	22.2	18.0	17.0	22.6	22.0	24.9	19.7	21.0

21.0% of those securing a university place in 2023 joined a Russell Group university. This is 1.3% up on 2022 (19.7%), and in terms of student numbers, it is the largest number across the decade (903), and likely to be above the average percentage for the sixth form colleges sector (19% in 2019/20).

It should also be acknowledged that a substantial number of students are accepted at highly competitive non-Russell Group universities such as Aston and Keele and Leicester. It is worth noting that, if Aston was included in Russell group figures, it would raise the number of students attending institutions of this nature to around 37%.

## **DfE Top Third Universities**

<b>Year</b>	<b>2018</b>	<b>2019</b>	<b>2020</b>	<b>2021</b>	<b>2022</b>	<b>2023</b>
Number of DfE Top Third Accepts	231	361	330	350	324	364
Total Accepts	767	835	781	800	813	1036
% Attending DfE Top Third	30.1	43.2	42.3	43.8	39.9	35.1

## **Top 10 Russell Group Destinations - 2023**

<b>University</b>	<b>No. of Students</b>	<b>University</b>	<b>No. of Students</b>
Birmingham	94	Cardiff	10
Manchester	16	Sheffield	7
Liverpool	12	Leeds	6
Nottingham	12	York	5
Warwick	10	Newcastle	4

## **Top 6 other Competitive University Destinations – 2023**

University	No. of Students	University	No. of Students
Aston	141	Aberystwyth	6
Leicester	15	Swansea/Loughborough/ Salford/Bangor	5
Keele	7	Sussex	2

## **Top 6 “New University” Destinations - 2023**

University	No. of Students	University	No. of Students
BCU	184	Wolverhampton	31
Coventry	89	Manchester Met.	21
Nottingham Trent	34	Leicester De Montfort	13

## **Overall Top 10 HE Destinations – 2023**

University	No. of Students	University	No. of Students
BCU	184	Wolverhampton	31
Aston	141	Manchester Met.	21
Birmingham	94	Leicester De Montfort	20
Coventry	89	Manchester	16
Nottingham Trent	34	Leicester	15

As in previous years, local universities continue to be the most popular destinations with Nottingham Trent, Manchester Met, Leicester De Montfort, Manchester and Leicester (in descending order) being the more favourable “non-local” choices.

For the past 5 years, acceptances for both Aston and University of Birmingham have been practically double that of 2018.

The number of students progressing to BCU and Coventry is again very healthy (184 and 89 respectively), and the 184 acceptances at BCU is the highest figure we have ever had for a single institution. This gives real purpose to the ongoing partnerships between the College and local universities.

### **League Tables**

The number of students accepted at various “Top 30” institutions is recorded in Appendix 1. As the DfE top third table contains both University of Birmingham and Aston University, it is not surprising that the number of students attending universities in this category is high (364 students, 40.3% of those accepted).

As the universities included in the variety of league tables vary from year to year, the information gathered is interesting but cannot be regarded as a key measure of performance.

## **HE Progression for Year 13 Completers (excluding ex-students)**

### **% Year 13 Completers Progressing to HE**

	2017	2018	2019	2020	2021	2022	2023
Number of Students	1055	1002	1053	915	1032	1020	1189
Number entering HE	782	701	731	704	738	730	808
% of cohort	74.1	70.0	69.4	76.9	71.5	71.4	68.0

68.0% of the 2023 Year 13 completers secured a place in higher education. This is 3.4% down on the 2022 and more in line with the pre-Covid years. However, it is well above the national DfE figure of 51.2%. It is also appreciated that some students who have failed to achieve their offer grades, will re-apply during 2023-24 with more realistic aspirations, and possibly better grade profiles, due to “re-sits” (to-date, 103 ex-students have applied through UCAS for 2024 entry).

### **% Year 13 A level Completers Progressing to HE**

Year	2017	2018	2019	2020	2021	2022	2023
Number of Students	853	815	709	662	705	781	890
Number entering HE	634	570	522	521	495	539	594
% of group	74.3	69.9	73.6	78.7	70.2	69.0	66.7

66.7% of the Year 13 A level students progressed into HE in 2023. This is lower than pre-Covid years and suggests a possible shift towards apprenticeships and employment. It may also indicate that universities are tightening up on entry requirements.

### **% Year 13 Applied Course Completers Progressing to HE**

Year	2017	2018	2019	2020	2021	2022	2023
Number of Students	200	179	326	247	327	310	299
Number entering HE	147	126	218	182	243	191	214
% of group	73.5	70.4	66.9	73.7	74.3	61.6	71.6

71.6% of students on the 3 A level equivalent applied courses secured HE places in 2023; this is a 1.0% increase on 2022 and substantially higher than the 2019 pre-covid figure. Also, it should be noted that earlier figures were based on 100% coursework rather than a mixture of assignments and exams.

In 2023, applied course students made up 25.1% of all year 13 leavers entering higher education. This is a 3.3% decrease on the 2022 figure (28.4%).

It is also interesting to note the success rates for different ethnicities within the A level and applied programmes. The following table show the % of the 2 largest ethnic groups securing HE places:

% of Ethnic Group Cohort Entering HE	English/Welsh/Scottish/Northern Irish/British	Pakistani
A Level Programme	59.1 (69.5)	70.2 (70.2)
Applied Courses	48.6 (60.8)	67.2 (68.2)

( ) = 2022 figures

It can be seen that, in both cases, a larger % of the Pakistani cohorts progressed to HE than the White British cohorts. Both groups had lower rates than 2022 but for English/ Welsh etc. there was quite a stark reduction.

### **Equality and Diversity**

The following section looks at two types of data, 'Percentage of Each Year 13 Group Securing HE Places' and overall 'Student Success Rates' (number of students securing a place compared to number who applied, including re-sits and gap-year students).

### **Gender**

Female students continue to out-perform males when securing places in HE and the destination figures for 2023 Year 13 completers, indicate a difference of 11.1%. This is in-keeping with females achieving higher grades than males.

% of Y13 Leavers placed in HE	2017	2018	2019	2020	2021	2022	2023
Female	76.3	73.2	72.1	80.0	76.5	73.1	65.0
Male	72.1	66.5	70.4	73.4	66.1	60.7	53.9
Difference (Female - Male)	4.2	6.7	1.7	6.6	10.4	12.4	11.1

As suggested in previous years, the reason for more female students securing places than males may be that they are more realistic in their aspirations and therefore make better plans for progression.

### **Acceptance Rate By Gender (all applicants)**

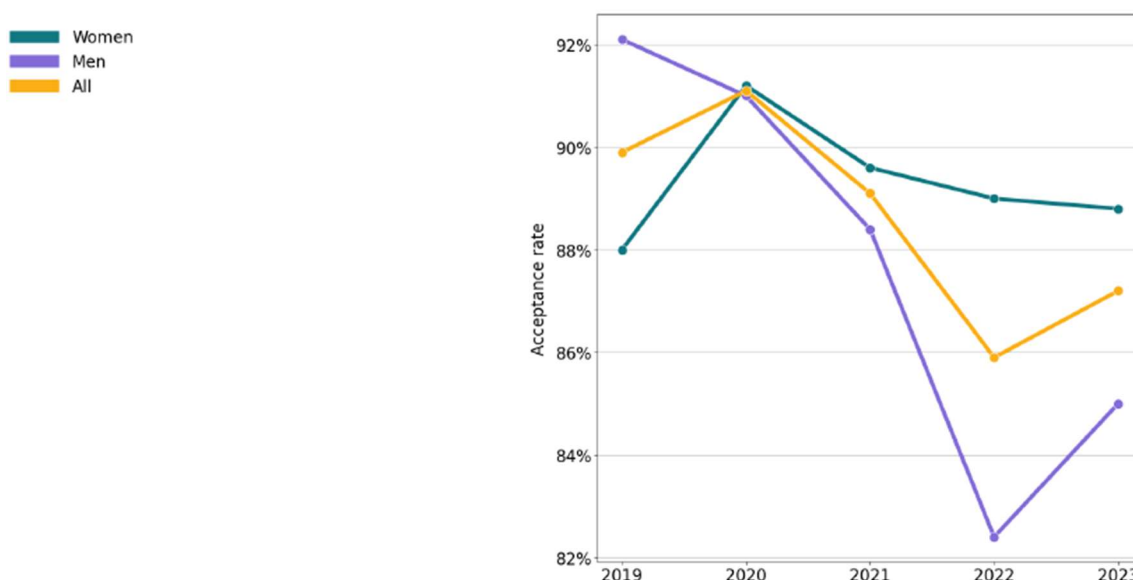

SSFC % Acceptance rate by gender (All applicants)	2019	2020	2021	2022	2023
Female	88.0	91.2	89.6	89.0	88.8
Male	92.1	91.0	88.4	82.4	85.0
Difference (Female – Male)	-4.1	+0.2	+1.2	6.6	3.8

For Year 13 students, we frequently see a larger % of the female cohort secure HE places than males. However, when looking at the overall data (including gap year and resit students), there is usually much less of a difference.

The data for 'All SSFC UCAS Applicants' (i.e. Year 13 plus "gap year" students) on the '2023 UCAS Progression Report', indicates a significant gap between genders, but closer than in 2022. "Acceptance rate" for males and females was virtually identical for 2020, but started to open out slightly in 2021, and then substantially in 2022. The gap now stands at 3.8%.

2023 National figures for 18-year-olds are Female 78.2% and male 76.6%. This is a gap of 1.6%, which is clearly much less, however, it can also be seen how much better both male and female SSFC students perform when compared to national figures.

### SSFC Acceptance Rate By Gender (all applicants)

### Ethnicity

Overall, the success of students from many ethnic backgrounds continues to be strong. This is particularly evident when looking at the tables at the foot of this section, comparing the success of different ethnicities for 'All SSFC applicants' to overall national values.

The table below displays Year 13 success as a percentage of the ethnic group over the years and for 2023. Even allowing for an overall college decline, it can be seen that this is not uniform across groups. White English/Welsh/Scottish has fallen by 10.1%, Pakistani has fallen by 9.8% and Bangladeshi by 9.6%. Whereas Black African and Black Caribbean have only fallen by 2.0% and 2.5% respectively (despite both having a much larger cohort in 2023). Acceptance for Asian Indian students rose by 1.3% and at 70.3%, was the highest achieving large ethnic group.

It is interesting to note that, although there are notable drops amongst several ethnic groups, this is a national pattern and overall figures for 'all SSFC applicants' compare favourably to national figures.

Ethnicity Group	% of each group achieving HE place by end of Year 13						
	2017	2018	2019	2020	2021	2022	2023
31 – White English/Welsh/Scottish	69.6	62.9	63.1	68.9	63.4	66.9	56.8
39 – Asian Indian	81.3	88.7	81.8	79.1	75.9	69.4	70.7
40 – Asian Pakistani	85.9	76.6	76.3	83.8	80.6	69.5	59.7
41 – Asian Bangladeshi	80.7	74.0	77.5	87.0	71.0	76.3	66.7
42 – Asian Chinese	66.7	85.7	100	100	100	83.3	100
44 – Black African	55.0	78.0	73.0	85.0	82.4	65.0	63.0
45 – Black Caribbean	83.3	64.7	78.9	85.7	55.6	62.5	60.0

On the 'UCAS Progression Report', issued in 2 parts (November and January), the college's overall application data can be compared to national figures for 18-year-olds. This data is presented in the form of broader, more general, ethnic groups than those used internally by the College.

The tables below indicate the % of **all** SSFC applicants, including gap year students, securing a university place.

( ) = number of applicants by ethnic group

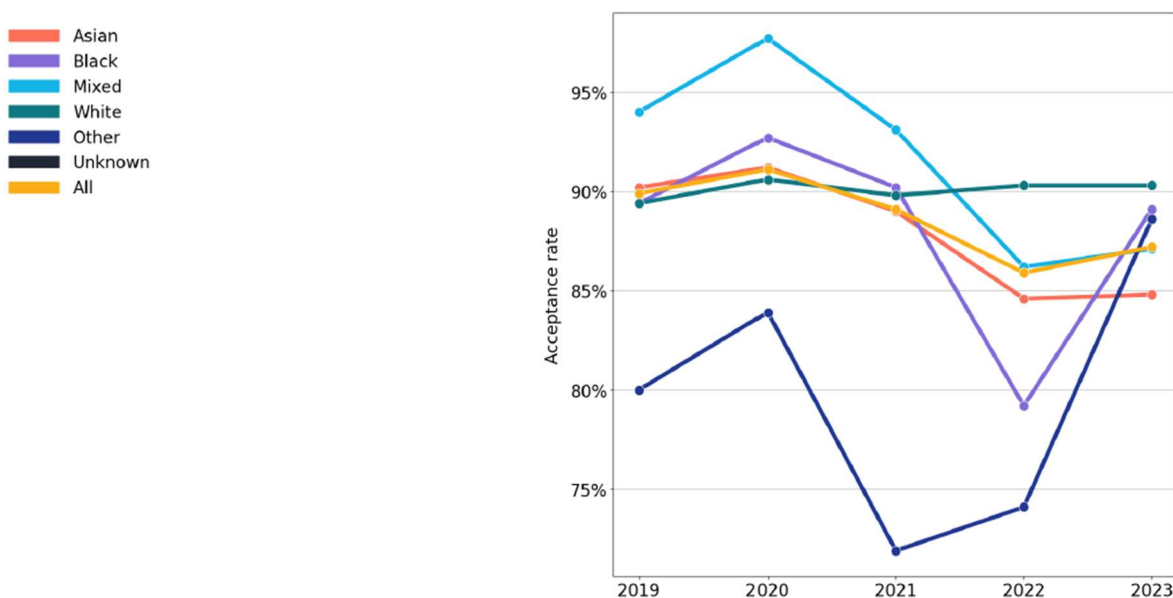

% of Asian Applicants placed in HE	2019	2020	2021	2022	2023
SSFC	90.2 (459)	91.2 (399)	89.0 (462)	84.6 (486)	84.8 (505)
National	86.8	88.4	87.2	83.9	83.2
Difference	+3.4	+2.8	+1.8	+0.7	+1.6

% of Black Applicants placed in HE	2019	2020	2021	2022	2023
SSFC	89.4 (66)	92.7 (55)	90.2 (51)	79.2 (72)	89.1 (92)
National	88.5	90.4	89.4	86.3	85.1
Difference	+0.9	+2.3	+0.8	-7.1	+4.0

% of Mixed Applicants placed in HE	2019	2020	2021	2022	2023
SSFC	94.0 (50)	97.7 (44)	93.1 (58)	86.2 (58)	87.1 (70)
National	85.9	89.4	87.2	84.3	83.5
Difference	+8.1	+8.3	+5.9	+1.9	+3.6

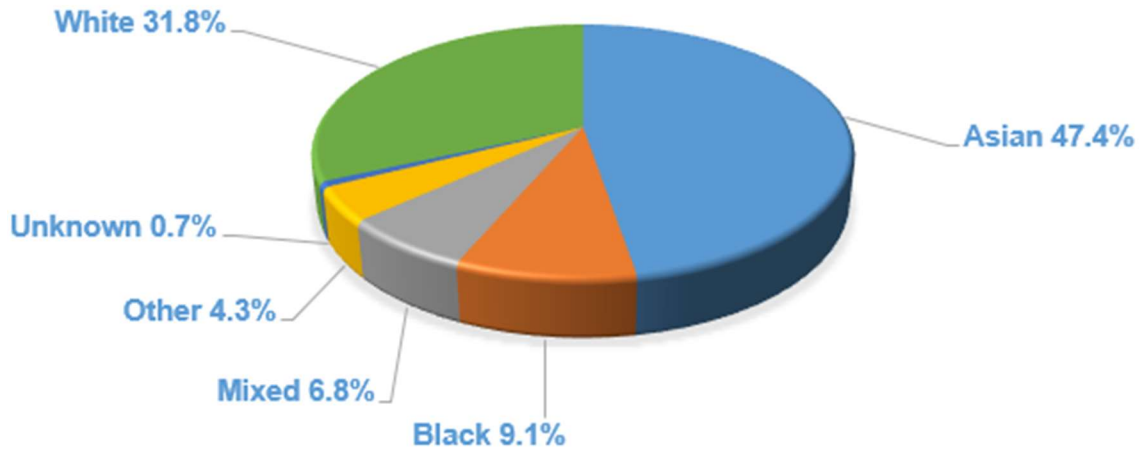

% of White Applicants placed in HE	2019	2020	2021	2022	2023
SSFC	89.4 (320)	90.6 (318)	89.8 (285)	90.3 (298)	90.3 (318)

Difference	+3.9	+1.5	+3.0	+6.8	+6.7

### Acceptance Rates by Ethnic group

It can be seen that in 2023, all ethnic groups performed well against national figures. This is particularly pleasing in terms of our black students, who stand 4.0% above national figures in a year where their population in the college is at an all-time high.

**SSFC PROPORTION OF ACCEPTANCES BY ETHNIC GROUP - 2023**

**Sustained Positive Destinations**

The information below, was provided in March 2024 by the **Sixth Form Colleges Association**. It compares sustained positive destinations for Solihull Sixth Form College with national figures for sixth form colleges and 16-19 academies.

**2020/21 Sustained Leaver Destinations Data**

<b>Destinations – 2020/21 leavers</b>		
<b>Institution</b>	<b>Overall education or employment / training destination</b>	<b>UK Higher Education Institution (HEI)</b>
Solihull SFC	89%	55%
SFCs and 16-19 academies	87%	55%
All schools and colleges	83%	45%

<b>HEI destinations – 3-year trend</b>			
<b>Year</b>	<b>2017/18</b>	<b>2018/19</b>	<b>2019/20</b>
Solihull SFC	71%	71%	81%
SFCs and 16-19 academies	67%	67%	72%

This data confirms that in-house calculations of % students progressing to positive destinations is producing realistic figures. It is also confirmed by the SFCA that in

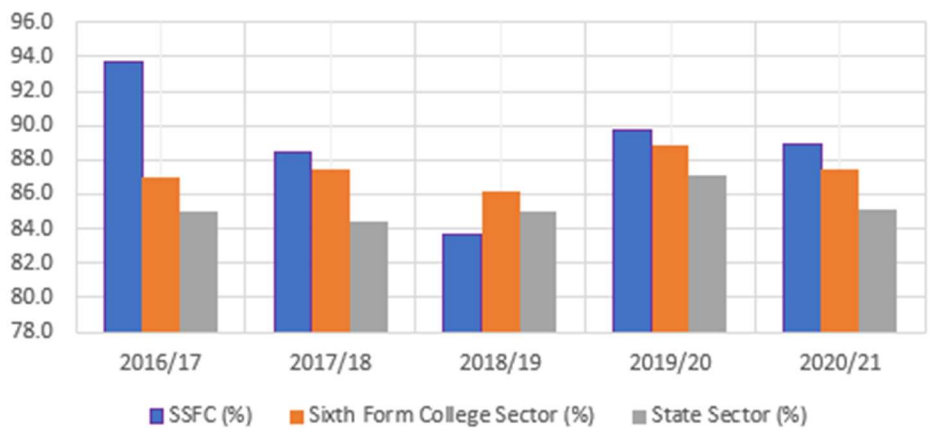

2019/20, with an HE VA of 10, the College is in the top 25% of sixth form colleges for HE destinations and is joint 9<sup>th</sup> in the sector

It can also be seen that the college support for less privileged students pays off in the way that these students stay on at their chosen universities once enrolled.

**Continuation rates after completion of first year of study for students from areas with Lowest HE Participation Rates**

Year	2016/17	2017/18	2018/19	2019/20	2020/21
SSFC (%)	93.8	88.5	83.7	89.7	88.9
Sixth Form College Sector (%)	87.0	87.5	86.2	88.8	87.5
State Sector (%)	85.0	84.4	85.0	87.1	85.1

HESA Data - Students from Areas With Lowest HE Participation Rates - % continuation in HE

# 16-18 destination measures

**THIS IS THE LATEST DATA**

**Published** 1 February 2024

**Last updated** 30 January 2024

## Headline facts and figures - 2021/22

Sustained education, apprenticeship or employment

**82.6%**

3.2 percentage point increase since previous year

▶ [Which students are included has changed this year?](#)

Sustained education destination

**51.2%**

0.7 percentage point decrease since previous year

▶ [What is an education destination](#)

Sustained apprenticeships

**7.2%**

0.8 percentage point increase since previous year

▶ [What is a sustained apprenticeship](#)

Sustained employment destination

**24.2%**

3.1 percentage point increase since previous year

▶ [What is an employment destination](#)

The make up of the cohort has changed this year compared to previous years and will impact comparisons over time. See the 'Changes to the data in 2020/21' section for more detail.

**Overall sustained destination rate increased in 2021/22; following a decline last year, higher proportions of students went into apprenticeships and employment in 2021/22.**

The headline destination rate was 82.6% for students that were deemed to have reached the end of 16 to 18 study in 2021, this is 3.2 percentage points higher when compared to the previous academic year. Some of this change will be because of the change in the make up of the overall 16-18 cohort this year as well as the impacts of the coronavirus (COVID-19) pandemic.

The increase in apprenticeship and employment destinations follows a fall in these measures last year which was likely due to the disruption caused by the coronavirus (COVID-19) pandemic.
