

Law Summer Homework – New Year 12's

In English law there are 2 distinct court systems, the civil courts and the criminal courts. These courts do however merge at the 'higher' courts.

Research the English Court structure.

Produce a diagram or diagrams illustrating this system(s) and label it. Both the civil and criminal court structure can be completed in one diagram but is up to you as to whether you want to do 2.

Describe either on the diagram or in a separate document the type of issues each court deals with.

Either on the diagram(s) or in the separate word document explain/ identify the appeal route from one court to another and how/why an individual can appeal.

Try and be creative in your design as the best diagram and guide to the English courts will be used on wall displays.

This homework will need to be handed in on your first lesson.
