

# BTEC Extended Diploma Art & Design Practice

(3 A level equivalent course)

## Why study Art & Design Practice?

- Art and design practices span a broad range of specialisms and purposes, but all practitioners in the creative industries work to enrich or improve the world around us. Before entering the industry, creative practitioners need to explore and refine different interrelated art and design practices in order to develop technical and communication skills and build confidence for producing outcomes to meet a need or fulfil a purpose.
- The Extended Diploma in Art & Design Practice specification has been developed alongside experts from the creative industries to focus on practical and progression-focused learning. This course provides students with opportunities to enter a broader range of higher education, apprenticeships, or employment roles.
- Student work is generated through practical projects, briefs, workshops and engagement with industry, preparing them through the development of portfolios and materials for progression. If you are seriously considering a career in art or design, this course will prepare you more thoroughly than taking a combination of A Levels.

## Why study Art & Design Practice at Solihull Sixth Form College?

- Students have progressed onto competitive courses such as degrees in Art History at the University of York, Fashion Illustration at the London College of Fashion, Automotive Design at Coventry University and Textile Design at Manchester University.
- Students who have graduated have gained jobs at Next as Head Designer of Boys Wear and Graphic Designers at Ted Baker and PlayStation. Students have also gone on to exhibit at New Designers in London and FESPA Global Print Expo in Munich while others have successfully gained apprenticeships at ARUP Design Engineering and Jaguar LandRover.
- There will be the opportunity to take part in a range of trips and visits. In previous years, students have visited places such as the National Portrait Gallery, Victoria & Albert Museum and the Pitt Rivers Museum.
- An overseas trip to visit galleries and museums in a major European city is also open to all Visual Arts students – we have visited cities such as Paris, Barcelona, Madrid and Rome & Florence.
- Students will complete a number of live briefs to develop their employability skills. Projects have included creating murals for Grove Residential Home & Tandy Court Hospice as well as working with Solihull Council and Talking Rubbish on a media campaign.
- Students will be expected to develop their work both during formal lessons, workshops and independently. The department operates an open door policy, encouraging students to return during private study time and work independently in the studios. This course can be tailored to your needs and aspirations, providing a first rate grounding for a range of progression routes.

### Case Study

Among the recent successful students to have taken this course is **Nina Dredger**.

She came to the College from Tudor Grange Academy and achieved a triple Distinction\* in her BTEC and an A\* in her Extended Project. She has progressed onto a Curation & Art History degree at the University of York.

*“The resources at this College are great. We always had access to materials and equipment that we needed in order to bring to life our ideas. I received constant support from teachers, who were always there to provide constructive criticism and praise for our work.” - student Nina Dredger*

## Course Outline

### Year 12: Exploring and Developing Art & Design:

- **Skills & Development** – Exploration of the fundamentals of art & design practice and development practical skills
- **Creative Project** – Response to a brief - from ideas generation to development of outcomes.

### Year 13: Advancing Creative Practice

- **Personal Progression** – Develop an understanding of industry, employment roles and higher education routes and prepare progression materials relevant to personal aims.
- **Creative Industry Response** – Advance practical, critical and reflective skills to plan, prepare and develop a proposal for response to an industry relevant brief and carry it out from concept to resolution. To allow for a rich and immersive learning experience, students can work freely across a range of technical skills areas, which reflect current industry practice. Some examples of areas of study include Fine Art, Textiles, Graphics, Multi-disciplinary work, 3D & Illustration.

## Assessment

All units are set and assessed internally. Grading is designed to reflect development so the final grade is weighted towards the second year of the programme to ensure that students have maximum opportunity to develop and apply their skills. All evidence produced for assessment is based on practical portfolios of work. The same five assessment criteria are used to assess all work throughout the qualification.

Examining Board – Pearson.

## Special Entry Requirements

Standard BTEC entry requirements apply - [www.solihullsf.ac.uk/courses/entry-requirements](http://www.solihullsf.ac.uk/courses/entry-requirements). In addition, a GCSE pass (grade 4 and above) or at least a Merit in an OCR National or Level 2 BTEC in Art, Graphics, Textiles or Design and Technology is essential. Students must be prepared to work hard and have a passion for this subject. A personal approach is encouraged throughout the course and it is expected that students will work in their own time to independently develop their projects.

## Prohibited Options

Students will not be able to take an A Level course alongside this qualification.

## What do our students go on to do?

Completing a BTEC Extended Diploma in Art & Design Practice allows students to apply directly to Art and Design degree courses. The majority of our students progress to university to study on a range of courses including Fine Art, Animation, Graphics, Textiles & Fashion, Architecture and 3-Dimensional Design. Students work on live briefs, exhibit their outcomes and work with industry standard software and equipment. This allows students to be prepared for a very competitive field of work in the creative industries.

## Work Placement

Students will be expected to prepare for their future through work placements and/or live briefs, giving students vocational experiences of working in the Creative Arts Industries. Previous students have had placements at places such as Birmingham Museum & Art Gallery and The Herbert Art Gallery & Museum. A clear DBS (Disclosure and Barring Service) may be needed depending on the nature of the placement/ live brief. The cost of the DBS is approximately £60.00 and if it is needed then you are responsible for this payment (details of how to pay will be provided).

## Cost Implications

The College supplies most art materials that you will need during your lessons and materials such as paint, clay, paper etc. are available in all studios. Students are strongly advised to buy a BTEC Starter Pack at the start of the year which contains sketchbooks, folders and brushes from the Department. This is approximately £30. Please note, this course requires students to purchase electronic storage devices (such as an external hard drive) to save and store large files, such as images and music. Students will not be able to save these large files onto the College IT network. We advise that students also back up these files via online Cloud storage such as Microsoft OneDrive to ensure their files are secure. In both Y12 and Y13, students are required to attend a compulsory local visit at a cost of £20-£30. Students who choose to go on the overseas residential trip will usually pay approximately £650 for this.

### Examination Results

In the past three years, there has been great success for students on this course as follows:

Year	Entry	Distinction*	Distinction	Merit	Pass	Fail	Pass %
2019	25	25	0	0	0	0	100.0%
2020	12	11	1	0	0	0	100.0%
2021	28	27	1	0	0	0	100.0%
