

Geography – Summer Homework

Summer Homework

- ▶ We want you to get off to the best possible start when you begin your studies with us in September. To help us see what level you are currently working at, we will ask you to complete a short piece of homework over the summer and hand it in during your first lesson.
- ▶ Your homework will be:
 1. Do not throw away, recycle or burn your GCSE Geography exercise books and notes. Put them in an A4 lever arched folder and divide them into two sections Physical Geography and Human Geography. Re-read your coastal notes (or rivers / glaciation).

2. Go to BBC Bitesize GCSE Geography and then CCEA - Coastal environments

<https://www.bbc.co.uk/bitesize/topics/zccfng8>

Coastal processes - Write 1 side of A4 - notes recapping the **processes (erosion, transport, deposition)** at the coast

Coastal landforms - Write 1 side of A4 - notes recapping the **landforms (the characteristics/what it looks like)** at the coast

Coastal map skills - Write 1 side of A4 - notes recapping your cartographical (map) skills.

Coastal management - Write 1 side of A4 - notes that include the different management strategies

3. BBC Radio 4 Costing the Earth - Are the youth revolting?

Listen to this broadcast on BBC Radio 4 Sounds. Put the title: BBC Radio 4 - Costing the Earth / Are the youth revolting? ... and the date top right. List and explain the 10 most important points you feel this broadcast made.

This task is getting you to 'think like a geographer', and is something you are required to do in the A level course.
